# FORT RECOVERY MUSEUM

1 Fortsite St | Fort Recovery, OH 45846  
800.238.8920 | [www.fortrecoverymuseum.com](http://www.fortrecoverymuseum.com)

On a small triangle of land along the Wabash River, two significant battles (1791, 1794) forever changed the course of this country's history. The first battle, "The Battle of The Wabash," resulted in the greatest loss ever suffered by the United States Army and the greatest victory ever for the Native Americans! Nine hundred of this young nation's 1200 soldiers were killed or mortally wounded at the hands of nearly 1500 warriors under the command of Miami Chief, Little Turtle and Shawnee Chief Blue Jacket.

Three years later, "The Battle of Fort Recovery" took place on the same triangle along the Wabash. However, with the protection of the fort, nearly 250 soldiers were able to resist a relentless two day attack by a confederation of 2500 warriors. After the defeat, Little Turtle said he would never again fight the American Army, saying, "To do so would be suicide to my people." This battle was an important step ultimately leading to the signing of the Treaty of Greenville and opening up the lands of the Northwest Territory for American settlement. The success of the US Legion at Fort Recovery and Fallen

Timbers proved that the United States had a viable army, was in control of its territories and insured the survival of this new nation.

Visitors to present day Fort Recovery see history come alive through the reconstructed fort with the two-story blockhouses and connecting stockade, along with two log cabins with exhibits of early colonial furnishings and tools. The adjacent museum houses accurately detailed figures of Wayne's Legion. Also of interest are the Native American history, models and artifacts, all of which tell the stories of those proud people. Fort Recovery Monument Park features an obelisk monument that stands over 100 feet high in honor of the soldiers who died in both battles, and whose remains are buried under that monument. Don't miss the historic murals that grace the downtown area.

## FORT RECOVERY STATE MUSEUM

**Fort**  
This partial reconstruction of the Fort of Recovery features two 20 ft. x 20 ft. two-story blockhouses with connecting stockades. Inside the fort area is located the corner marker of the Greenville Treaty Line, which was established by the 1795 Greenville Treaty. 15 Wayside exhibits on the battlefield have been added.

**Monument Park**  
In 1908, President William Howard Taft signed a bill for the construction of the Fort Recovery Monument to recognize the significance of the military events that occurred there, and to give a final resting place to all soldiers who died in the battles. The obelisk memorial and burial crypt underneath were built in 1912 and dedicated on July 1, 1913.

**Museum**  
On floors one and two, with completely new exhibits, Fort Recovery State Museum houses one of the finest military museums in the country. On the third floor is one of the nicer prehistoric artifact collections on display in Ohio.

**Franke Walkway**  
This bucolic walkway links Fort Site Park to the Fort Recovery State Museum. Signs lining the walk detail the early history of the village as well as the two greatest Indian battles ever to take place in the United States, battles that occurred on this very ground.

**Pioneer Cabins**  
See two restored log cabins, one depicting home life in the early 1800's, the other containing many old farm and hand tools. Descriptions of contents make the sites interesting and educational.

# GRAND LAKE ST. MARYS

## A FUN FAMILY DESTINATION

*...for More Than 100 Years*

Families have long enjoyed vacationing at beautiful Grand Lake St. Marys. Ohio's largest inland lake has been a destination for boating, swimming, fishing and picnicking for many generations.

## Appreciate the History

Constructed by man, without power equipment, Grand Lake St. Marys served as a feeder lake for the Miami-Erie Canal. At its completion in 1845, it was the largest man-made lake in the world and is still the largest hand dug lake. Workers received 30 cents a day and a jigger of whiskey for their labors. In the early 1890's the lake became the site of the first off-shore oil drilling platform. By 1915 there were more than 150 oil wells in the lake. Other past business ventures on the lake included ice harvesting and commercial fisheries. It was also the location of a large amusement park, dance halls and church camps.

## Enjoy the Great Outdoors

Today Grand Lake St. Marys State Park consists of nearly 600 acres of prime lakeside parkland. You will find trails and walkways, great access to fishing, swimming beaches, picnic amenities, excellent bird watching, public boat launch areas and a large, well maintained state campground. You'll also find:

Year round fishing, with many tournaments held on the lake each year • Sport fishing species include bass, crappie, perch, bluegill, catfish & walleye • Three pair of nesting American bald eagles • Miles of hiking & biking trails along the lake and adjacent wetland preserves • Excellent goose and duck hunting • A state fish hatchery • Snowmobiling • Waterfowl refuge and wetlands nature observation decks and trails • Handicap access fishing piers and boat docks • Kayaking clubs • Ice Fishing • Four bait & tackle shops around the lake • Great for Bird Watching - with a wide variety of waterfowl and migratory birds.

## When visiting Grand Lake St. Marys, Don't Miss:

The 3 lighthouses on the lake • The many lakeside festivals, concerts, races and other fun events • The great local cuisine and lakeside dining available at a number of restaurants.

## Stay a While

From primitive campsites to lakeside, Jacuzzi hotel suites to homey cottages, you will find a wide variety of lodging options for your visit including two hotels with lake views, two hotels with docks available for guests, over 1,600 camp sites along the lake and many cottages, cabins and overnight facilities.

# LIGHTHOUSES

*You will be in awe...*

as you view these stunning lighthouses on Grand Lake St. Marys. Although it is an oddity for an inland lake to possess a lighthouse, Grand Lake St. Marys is proud to boast of three such structures.

## Northwood Lighthouse

This 1923 Eddystone Lighthouse is a monument to the original English Channel Beacon. In the early days it operated under a government license from April to November. Located on the north shore between Celina and St. Marys. Viewing from lake only (National Registry of Historic Places).

## Rotary Lighthouse

US Route 127 and Lake Shore Dr | Celina, OH  
This forty foot working light- house welcomes visitors to Celina each evening. Built in 1986 by the Celina Rotary Club, this structure has a wrought iron observation deck encircling it for those who wish a "grander" view of the lake.

## Behm's Lighthouse

This beautiful stately structure was dedicated on April 19, 2003 in memory of Stanley Mike Grimm. The operating marine light can be seen up to seven miles. It can be viewed on the south shore of the lake at 5444 Behm Rd. at Behm's Landing.

# MIAMI & ERIE CANAL

The Miami and Erie Canal was significant in the development of Ohio as settlers found an easier way into the wilderness and commerce found a cheaper route to markets. It also served as a vital connection, linking towns and cities along the way.

Beginning in 1825, it took 20 years to construct the 256 miles of canal from Cincinnati to Toledo and cost more than \$8 million. Irish, French and German immigrants, who labored for 30 cents a day plus a jigger of whiskey, manually moved trees, rocks and soil to create the waterway through the wilderness. The peak year for canal use was 1851 with over 400 boats moving freight and passengers. The canal also provided a water resource and water power supply. As railroad use increased, commercial use of the canal diminished. The final blow was the Great Flood of 1913 which destroyed portions of the waterway.

The Miami and Erie Canal Recreational Towpath Trail connects canal communities with an enhanced trail to accommodate bicycles and hikers. Numerous long-distance hikers enjoy the history and culture of the region as the Towpath Trail is part of the designated Buckeye Trail and North Country National Scenic Trail.

A great place to begin local exploration of the canal is the Miami and Erie Canal Visitors Center at Lock One in New Bremen. The center offers numerous exhibits and displays and the lock has been restored to its 1910 appearance with wooden gates and a spillway bypass. While in New Bremen be sure to appreciate the many restored canal era buildings.

Just north of the village along the canal is the Kuenning - Dicke Natural Area. The 71 acre parcel, with a pond, prairie area and woodlands, provides a great spot for primitive camping, picnicking or just enjoying nature. The site hosts 2.5 miles of trails for walking, running, hiking and biking.

In St. Marys, Memorial Park is home to the Belle of St. Marys, a replica canal boat docked adjacent to canal era warehouses and a restored lock. The Park also features a covered bridge, clock tower and a lovely brick walkway along the canal. View the Tumbles as you walk through High Street Park and connect with the trailhead that continues the walking path to the 40 Acre Pond, Lock 14, the Bloody Bridge and Deep Cut. Along the way be sure to appreciate the Six-mile Creek aqueduct. This original stone aqueduct with twin arch spillways was built to carry the canal 18' above the creek and was restored in 2019. While in the St. Marys area check out Grand Lake St. Marys, Ohio's largest inland lake. This 13,500 acre manmade body of water was originally created to serve as a source of water for the canal.

# THE LAND OF THE CROSS-TIPPED CHURCHES

This 39 mile scenic byway consists of more than fifty buildings representing the German Catholic settlements of southern Auglaize and Mercer Counties, as well as portions of northern Darke and Shelby Counties, which were placed on the National Register of Historic Places. Consisting of churches, schools, rectories and convents, this grouping is symbolic of the cultural and historical uniqueness of the region. Today, these structures remind us of the hard work and dedication of these early settlers as they built the Miami-Erie Canal and forged a new life on the area's rich and productive farmland. Trips through the rural countryside follow the quaint churches with their cross tipped "spires to heaven" and include stops at the focal points of the region: the former convent at Maria Stein; St. Augustine Church - the original Mother Church of the area at Minster and St. Charles Center, the magnificent and impressive former seminary at Carthagen.
